# COLLECTION STAR.KR

SKEMA®

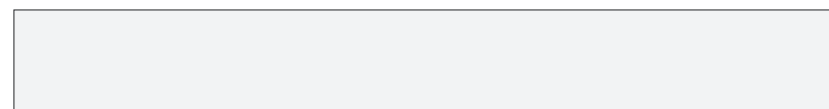

**Star.kr** è la collezione che ambisce ad offrire un'esperienza estetica del decoro naturale. La struttura con tecnologia a registro adottata, aumenta notevolmente il realismo dei pavimenti che si distinguono anche per l'effetto ultra matt, i cromatismi perfetti e la naturalità delle finiture nette. Il poro tridimensionale, dato dalla tecnologia sincroporo, mette in risalto venature e lavorazioni superficiali, con un effetto estremamente realistico e naturale, sia ottico che tattile.

**Star.kr** is the collection that aspires to offer an aesthetic experience of natural decor. The structure with register technology adopted enhances greatly the realism of the floors, which also stand out for their ultra-matt effect, the perfect chromatisms and the naturalness of the clean finishings. The three-dimensional pore, came from the syncropore technology, highlights veining and surface processings, with an extremely realistic and natural effect, both optical and tactile.

## Dimensioni / Size:

1829 x 228 x 6 mm

1500 x 220 x 6 mm (rovere autentico)

## Caratteristiche Tecniche / Technical Features:
